

BioSil™

**NON GMO**

CHOLINE-STABILIZED ORTHOSILICIC ACID (ch-OSA™)

- Helps in the formation of collagen
- Supports hair, skin and nail health

Collagen is the key structural protein for creating smooth skin, thick strong hair, and strong nails. During youth, you have a rich abundance of collagen. In addition, the collagen forms itself in a resilient “tight mesh” matrix. This “ideal” collagen condition prevents wrinkles from forming, gives skin elasticity, and helps create thick and strong hair. But starting at age 21, collagen diminishes by 1% per year. That’s when the vital collagen “mesh” begins to loosen. By age 30, the signs of reduced collagen on skin, hair and nails become visible.

BioSil’s patented choline-stabilized orthosilicic acid (ch-OSA®) is **clinically proven** to make genuine collagen regeneration a reality. BioSil® “turns on” the body’s actual collagen-generating cells, known as fibroblasts. BioSil has been tested in rigorous double-blind placebo controlled trials for both efficacy and safety.

Collagen: Generate It – Don’t Eat It

It’s important to note that **BioSil™** is not made out of collagen, it generates collagen. There’s a big difference. When you ingest collagen, the human body breaks it down and uses it as food. By contrast, BioSil’s patented ch-OSA® complex helps your body to generate its own collagen for stronger, healthier and thicker hair, stronger nails, as well as fewer fine lines and wrinkles.

BioSil™ CAPSULES

Each Capsule Contains:

Medicinal Ingredients:

Silicon (choline-stabilized orthosilicic acid)	6 mg
Choline (choline chloride)	112 mg

Non-medicinal Ingredients: Microcrystalline cellulose, vegetarian capsule (cellulose, purified water), purified water.

Recommended adult dosage: 2 capsules daily or as directed by a health care practitioner.

CODE: 0177-45 veg caps, 0153-90 veg caps, 0157-120 veg caps **NPN:** 80023605

BioSil™ LIQUID

Medicinal ingredients:

Silicon (as stabilized orthosilicic acid) (ch-OSA®)

Non-medicinal ingredients: Choline chloride, glycerol, purified water. 1 drop of BioSil is equivalent to 1 mg of silicon.

Recommended adult dosage: Mix 5 drops in a glass of juice twice a day (morning and evening) and drink immediately or as directed by a health care practitioner.

CODE: 0169-15 ml, 0155-30 ml **NPN:** 80005878
