

Probiotic™

- Probiotic to Benefit Health
- NO Refrigeration Required

The Need for Probiotics

Probiotics are a group of powerful healthy bacteria that reside throughout our gastrointestinal system. They are essential to the health and vitality of our immune system, proper digestion and the manufacturing of various vitamins. Probiotics are needed for intestinal microbial balance but sometimes this balance can be thrown off, leading to diarrhoea, constipation, candida yeast infections and other health issues. Probiotics can be affected by: the use of antibiotics; gastrointestinal infections; food poisoning and other intestinal disturbances often experienced while traveling. When the ratio of beneficial bacteria increases in the intestine, intestinal conditions are healthier, but when the harmful bacteria increase in the intestine, it leads to harmful conditions such as constipation or diarrhoea.

So What Makes Ultimate Probiotic Stand Out From The Rest?

Ultimate Probiotic contains one of the most research-proven beneficial probiotic species – bifidobacterium – and the main intestinal microflora residing mostly in the colon. Ultimate Probiotic has been proven safe in over 30 years of studies. It is also backed by over 15 years of controlled studies proving its efficacy and is the only probiotic available today to carry the highly proven shelf-stable BB536 strain of bifidobacterium – with NO refrigeration required.

Each Capsule Contains:

Medicinal ingredients:

Bifidobacterium longum BB536® * 5 billion CFU**

*BB536® process stabilizes the most sensitive bifido bacteria and guarantees bioactivity even when not refrigerated.

** CFU: Colony forming units

Non-medicinal Ingredients: Microcrystalline cellulose, calcium carbonate, vegetarian capsule (cellulose, purified water), tapioca starch, tricalcium phosphate, vegetable grade magnesium stearate (lubricant).

Recommended adult dose: 1 capsule 2–3 times a day taken before meals or as directed by a health care practitioner.

CODE: 0379-90 veg caps **NPN:** 80011774
